All three books are registers, mostly dedicated to the early medieval artistic production and culture between the Sava and the Drava rivers. The first book, *Register of Sites and Monuments of Earlier Medieval Art between the Sava and the Drava Rivers*, covers 565 medieval sites in northern Croatia with short descriptions and bibliography. The *Register of Archaeological Finds and Sites in Bjelovar-Bilogora County* lists all the known cultural sites in Bjelovar-Bilogora County from prehistory to the Late Middle Ages. The volume entitled *Discovered Plains* is dedicated to medieval art (mostly architecture) in eastern Slavonia.

The books will be presented by József Laszlovszky (CEU), Miklós Takács (Institute of Archaeology, Hungarian Academy of Sciences) and Béla Zsolt Szakács (CEU/Pázmány Péter Catholic University).
